FIRE INSURANCE NOTICES, &c. SOUTHERN PROTECTION INSURANCE COMPANY,
ALEXANDRIA, VIRGINIA.

WEDNESDAY MORNING, JULY 20, 1859.

CAPITAL OVER 350,000 DOLLARS AND CONSTANTLY INCREASING.
The Charter of this Company offers more favorable advantages to the farmer and others, than any Company chartered in the State, by insuring with or without a premium note. If the applicant prefer, he can pay the full amount of the premium in cash, or by effecting a cash insurance for two years, the insured saves one eighth of the amount he would otherwise have to pay; or by becoming a member, and giving a small premium note, the insured saves nearly one-half of the amount charged by Stock Companies, when insuring from year to year. This is the advantage resulting from the

ombination of the CASH AND MUTUAL PRINCIPLE. This Company commenced issuing Policies gainst loss or damage by fire, on the 13th day of March, 1854, since which time over seven thousand seven hundred persons have insured and become members of the Company, and over seventy thousand dollars have been paid for losses. Having increased our business during the past year, we feel grateful for the liberal patronage bestowed upon the Company thus far, and for its flattering prospects of future usefulness. The Directors hope and believe, that, by prudence, caution, and a rigid system of economy, they will establish for this Company a reputation for cheapness and safety not surpassed by any Company in the U. States. All differences in settlement of losses, may be determined by three disinterested arbitrators of the County where such loss happened, to be mutually chosen by the insured and the Company.

MISCELLANEOUS READING THE CLAY FAMILY.

An old letter, written in 1848, by the late Rev. Porter Clay-then preaching at Alton,

origin of the Clay family:

Your wishes to know something about the history of our family could not be gratified within the limits of a letter. The following concise accounts must suffice. In the reign of Queen Elizabeth, Sir Walter Raleigh brought over to the Virginia plantations, among others, three brothers, sons of Sir John Clay, of Wales, England. He gave them \$10,000 each, which was a very large fortune at that time. Their names were Charles, Thomas and Hen-

ry. They settled on James River, near Jamestown. Two of them, Charles and Thomas, had large families. Henry had no children. The name Henry has been handed down in both branches of the family with great tenacity eversince. Cassius M. Clay is a descendant of Charles Clay; Henry and my self from Thomas Clay. Thus the two brothers alluded to are the progenitors of all the Clays in the United States.

My father, as you have heard, was a clergy man of the Baptist denomination. He died in early lite, leaving seven children-four sons and three daughters; all of whom died without children, with the exception of Henry and myself. My mother was married the second time, and raised a family of six children, two of them are still living-Nathaniel W. Wat-kins and Frank Watkins, residing in Missouri. My brother Henry has had eleven children, six daughters and five sons. The daughters are all dead, and one son, H. Clay, Jr., who was killed at the battle of Buena Vista-his wife having previously died, leaving three children, who are with their mother's connections in Louisville. Three of my brother's sons are settled near him, in the neighhood of Lexington. Two of these, Thomas and James B. Clay are married and doing well-one a lawyer, the other a farmer. John, the youngest, whom you saw at Washington, is with his father, at Ashland. Theodore, his eldest son is in the Lunatic Asylum in Lexington, a confirmed lunatic."

PIONEER MILLS FOR SALE!

WE are authorized by the proprietors to offer at private sale this extensive establishment. The MILL BUILDING is fire proof, built on piles, with stone foundation, and is situated directly on the River front, and within a few yards of the Orange & Alexandria and Manassas Gap Railroads, with Wharves, and depth of water sufficient to accommodate vessels of the largest class. Its dimensions are 122 feet in length, by 80 feet in width, four and a half stories high, and is covered with slate.

A GRAIN ELEVATOR is also attached, by

which grain can be rapidly discharged from ves-sels immediately into the Mill. The GRAIN BINS are capable of holding 70,000 bushels of Wheat. The Elevator is worked by a small engine, separate from that used in manufacturing, so that grain can be received while the Mill is not in operation. There are TWELVE PAIRS OF STONES, of

41 feet diameter, capable of manufacturing, when in full work, about 800 barrels of Flour per day.

The ENGINES and BOILERS are very superior, made by Otis Tufts, of Boston, Mass., with-out regard to expense. There are six Boilers, with

return flues. The Engines are high pressure, and of 250 horse power. WATER and GAS have been introduced through out the entire establishment, with Hose, &c., at Bombazines; also another supply of those desirable tached to the water pipes in each story. The above is only a general description of this extensive Flouring Mill. Persons desirous of pur-

chasing, will, of course, visit the establishment, where every information will be afforded the The Machinery is all nearly new, and of the most approved description, it having been the design of the proprietors to erect a Mill second to none in this section of the country. In it will be found everything appertaining to a first-class Flour-

ing Mill.

A COOPER'S SHOP, of brick, covered with slate, and with iron window shutters, adjoins the Mill. Its dimensions are 100 feet in length, by 31 feet in width, two stories high. It is perfectly fire proof, and has in it a full complement of Tools, &c., all in perfect order. There are now about 7,000 FLOUR BARRELS on hand, which will be sold with the Mill. Also, a lot of Cooper's

stuff, STAVES, HEADING, &c. It is rarely that such an establishment, so extensive and complete in all its appointments, is offered to the public. The terms of the sale will be made easy.
